4) Why the bill is made out in the name of the Executive Engineer instead of the Medical Officer in charge is not explained nor is it stated whether these medicines are such as are usually supplied by the medical stores to the various dispensaries in the State. If they are of one, how usually supplied full reasons for requiring these medicines should be forthcoming. If the above are absent but as the advice Deptt have sanctioned the bill for sanction it has to be presumed that these items have been duly considered. The advice Deptt. have moreover rightly held that in future previous sanction for which be obtained for these purchases. In these circumstances there seems to be no objection financially to sanction the bill.

The Med. Stores have hitherto been supplying Hospitals & Dispensaries in the State with medicines & I have personally no objection whatsoever to supply every demand made by every Department in the State if sufficient funds are placed at my disposal for the purchase of medicines (Drugs as well as necessaries). It is a matter of budget-allotment. I should also bring to the notice of the Govt. that the extra work involved in making out Indents keeping accounts of work adjustment &c &c of this work will necessitate extra hands being employed. As it is even on holidays the Stores work is being done & yet there is a hue & cry that supplies have not been received by the Indentors in time. This is owing purely to want of sufficient working hands.

I beg to solicit sanction of the proposal already submitted in view to more efficient & prompt despatch of work in the Medl Stores being ensured.

In order to carry out the economical & safe medicines from the Stores rather than the Department being in peril from medical firms but the charging of the price to the Departments concerned does not place additional funds for such purchase by the Stores at my disposal.

What is wanted is extra Budget grant & extra working hands.

31 Submitted for orders.

27/5 32 The draft order is of a General character and applies to all departments which have to get medicines from the Govt Stores. But according to the classification in the Civil Account Code a Public Service Dept. Such as the Medical, Sheriff not ordinarily charge other departments for services peculiar to such department. Thus if the Geological department want medicines to be supplied to it, the charge should be debited to the medical department & not to the Geological department.

This would be so if the Govt. Dept wanted medicines at Govt expense for departmental use. But that is not likely as medicines cannot be required for Govt work in any Dept except Medical. This refers perhaps to Sales to officers for private use & if so price must be charged. Please clear up the point JM 6/6

33 But the case of the Dispensary maintained by the C.P.S. department which is a Commercial Dept is of a different character altogether. In this case there is no objection to the debit being made to the C.P.S. department.

34 It is therefore suggested that the order be made applicable only to the C.P.S and not to other departments

37 Regarding the supply to Public Service departments, the existing practice seems to be to supply medicines at cost expense (either from office contingencies or charging drugs from the Medical Stores) to establishments which have to work for long periods in out of the way places where medical aid is not available (e.g. Geological, Res. Submitted. The List of Officers for whose private use Medicines are supplied has not been furnished. It is not clear if it is necessary since the question now for consideration is to regularise the past and prescribe an uniformity of practice. A Statement as ordered is put up.

31/3

It is seen that in some of the Cases past is recovered. In case of Officers under four orders no past is recovered. These are (1) St Marthas Hospital (2) Govt Deptt Officers (3) Servants Families (4) Surgeon when on tour (5) Staff Med Officers when ill.

When St Marthas Hospital is a Govt Institution I do not see why medicines should not be supplied free. Indent is intended as advised and there seems to be no reason to issue medicines free in the Case of Govt Deptt Officers who have to pay in places where there are no hospital medicine chests may be supplied free in the Case of items 3 & 4 free supply is not understood. The Hd Qrs Med Officer can indent & obtain medicines for his work & why the issue should be shown

To

Sir,

In reply to your D.O. letter No. Fl.1397 dated 18th instant, enquiring why the medicines indented for by the Assistant Surgeon C.P.S. Dispensary at Sivasamudram were stated as not available in the Medical Stores and whether I will accept the debit of the cost of the said medicines against the grant for the Medical Stores, I have the honor to state as follows:-

2. The Assistant Surgeon in charge of the C.P.S. Dispensary, Sivasamudram submitted an indent with his letter No.360 dated 23rd August 1910 for certain medicines for the use of the workmen there as per notice to the Foremen of the C.P.S. Works, issued by Mr. F.W.Willis, C.P.S.

3. Some of the medicines asked for in the above indent were not in stock at the Medical Stores.

4. Moreover, as no extra provision existed in the Medical Stores Budget to cover the needs of other Departmental Medical Institutions as such P.W. Dispensaries, Military Hospitals &c, and the Electrical Department have been paying, every year, the cost of all medicines and instruments supplied to this Dispensary by the English Firms, out of their own allotment, the Assistant Surgeon of Sivasamudram was informed in this office No.402 dated 2nd September 1910 that these medicines were not available at the Medical Stores and they might be purchased from some local Firms

(4

5. As regards your enquiry regarding the possibility of debiting the cost of these medicines against the grant for the Medical Stores, I regret to state that the amounts kindly sanctioned by Government for the current year's purchases, are scarcely adequate to meet the requirements of the Medical Department proper and as such, no appropriation can be found possible out of the Medical Stores grant, for the purchase of the medicines under reference.

I have the honor to be,
